CUE Qualification through RHE-cert: ☐ Yes: State/Jurisdiction \_\_\_\_\_ ☐ No

Welcome to the Ekso Bionics Ekso training program. Ekso Bionics has been granted 40 Continuing Competence Units through Redefine Health Education (RHE), for successful completion of the Ekso training program. RHE recognizes the comprehensive overview of gait analysis, robotic technology integration into gait training, and interactive learning through guided instruction during your training program.

### Requirements:

#### Initial Training Certification:

- ☐ Successful completion of Level 1 Competency
- ☐ Completion of IT Training Questionnaire
- ☐ Implementation of Ekso into clinical utilization and recorded log of 10 participant sessions
- ☐ Schedule Phase 2: Advanced Feature and Level 2 certification of Ekso Bionics: Ekso training

#### Advanced Feature and Level 2 Certification:

- ☐ Successful completion of Advanced Feature Competency
- ☐ Successful completion of Level 2 Competency
- ☐ Completion of Phase 2 training questionnaire

Congratulations and thank you for your active participation in the Ekso Bionics clinical training program. Upon completion of the listed requirements, Ekso Bionics will email each PT with a link to insert their license number and generate a course completion certificate.
